

Allowed Notifications Settings – iOS 15 Only

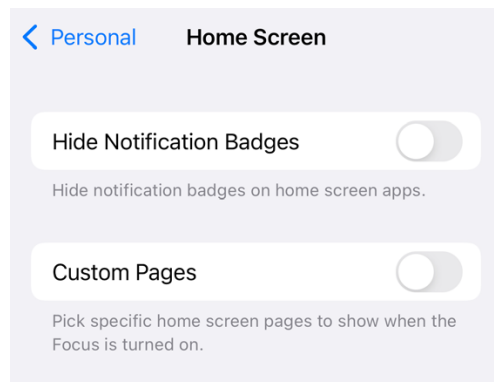

Voalte Me users must be able to hear notifications in order to reply in a timely manner. Please follow the instructions below to ensure notifications are not missed. This setting applies only to users on iOS 15 and above.

Allowed Notifications Settings (iPhone – ***iOS 15 ONLY***)

Add Voalte Me to Allowed Apps under Allowed Notifications

Go to Settings->Focus->Do Not Disturb. Under Allowed Notifications, click on Apps. Click Add New to add Voalte Me. Enable Time Sensitive.

Note: If Hide Notification Badges is enabled, Override Do Not Disturb will not show badge icons, only banner alerts and tones. Go to Settings->Focus->Do Not Disturb->Home Screen. Ensure Hide Notification Badges is disabled.
